

2007 eGovernment Services Report

Cover Photos by Mike Klemme Photography

Combine in Wheat Field

Weatherford, Oklahoma

A combine harvester works in a wheat field near one of Oklahoma's largest wind farms. Although much of the state's wheat was lost in flooding during 2007, wheat is typically Oklahoma's number one revenue producing crop.

Sunrise

Downtown Oklahoma City

The Liberty Tower is the tallest building in the foreground of this photo taken from top of the parking lot next to the Bricktown Ballpark at sunrise.

Round Barn

Arcadia, Oklahoma

This unique barn along historic Route 66 recently underwent more than \$20,000 in repairs to maintain its red exterior.

Capitol Dome

Oklahoma City, Oklahoma

For 85 years, the Oklahoma State Capitol Building had remained unfinished. Our new Capitol dome, installed in 2002, is a landmark that can be seen from a number of places around the city. The dome weighs approximately 5 million pounds and provides a magnificent crown to the Capitol measuring 157 feet in height above the existing ring beam and 80 feet in diameter.

Washita County Courthouse

Cordell, Oklahoma

This stately building in Cordell, Oklahoma, is the Washita County Courthouse, recognized on the National Register of Historic Places for its Classical Revival style architecture. The surrounding area—New Cordell Courthouse Square Historic District—dates back to 1875 and was added to the Registry in 1999.

Mixed Architecture

Tulsa, Oklahoma

Taken from South Boston Street, this photograph shows the beautiful mix of architecture in downtown Tulsa. It also shows the boom and bust cycle of the local economy. There is a flourish of art deco buildings from the 20s and another from the 70s, but not much from between those two boom times in the Tulsa economy.

Oil Rig

Carnegie, Oklahoma

In the center of a plowed field, this Oklahoma oil rig coexists easily with the surrounding agriculture. Oil has played a large role in Oklahoma's economy since the first commercial oil well was completed on April 15, 1897.

My Fellow Oklahomans:

As technology continues to transform our society, the state of Oklahoma is working harder than ever to deliver fast, dependable and secure online services to citizens and businesses. I'm proud to report that Oklahoma's Centennial year has marked another milestone in our ongoing effort to provide convenient, easy-to-use information and services over the Internet.

Over the course of 2007, state agencies performed more than 2.1 million online transactions, with the result being a more effective and efficient state government. As access to the Internet increases and more services become available online, we're looking forward to that number growing at an exponential rate.

I hope you enjoy this report on the OK.gov portal, which provides information and insight to exciting eGovernment initiatives in Oklahoma. We are committed to making the state of Oklahoma the best at providing efficient and effective service to all citizens and businesses.

Sincerely,

Brad Henry
Governor

Dear Oklahoma:

2007 was a productive year for eGovernment in Oklahoma. From professional license renewals to interactive Web sites, this year OK.gov produced 43 online services for state agencies. Since the deployment of OK.gov, over 200 online services have been produced, resulting in a more efficient state government.

I am proud to announce that in 2007, OK.gov earned the Enterprise Certification from Cybertrust, a leading information security specialist. Oklahoma is focused on providing online services in the most safe, private and secure environment possible. OK.gov's initiative to obtain certification ensures the state's online services are constructed with the highest degree of safety and security.

As technology continues to mold and shape our society, we are proud to partner with OK.gov as Oklahoma's online service provider. We look forward to expanding the existing online service offering and implementation of new online services in 2008.

Sincerely,

Joe M. Fleckinger

“As the official Internet gateway of Oklahoma, we are committed to providing citizens and businesses with efficient online access to government.”

OK.gov Mission Statement

In June of 2001, through competitive bid, the state of Oklahoma entered into a public-private partnership with NIC, Inc., conducting business in the state of Oklahoma as YourOklahoma, to provide eGovernment services. In November of 2004, the portal (YourOklahoma) was re-branded as OK.gov. During the partnership, the state of Oklahoma continues to receive national recognition for its achievements, while 67 agencies have deployed over 200 online eGovernment applications.

OK.gov provides Oklahoma citizens and businesses with 24 by 7 access to state government information and services. The portal offers more than 44,000 pages of information and interactive services, which are accessed on average nearly seven million times each month.

Number of OK.gov Pages Viewed in 2007

In 2007...
In 2007...

Over 2,179,000 Transactions

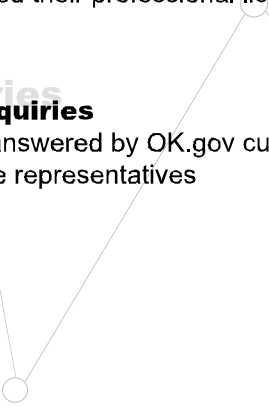

were processed through the OK.gov
Secure Payment Engine

Over 41,000 Oklahomans

renewed their professional licenses online

Over 8,200 Inquiries

were answered by OK.gov customer
service representatives

Oklahoma Department of Public Safety Municipal Court Reporting System (Phase Two)

The Oklahoma Department of Public Safety's (DPS) Municipal Court Reporting System is a reporting tool that enables municipal courts to communicate to DPS information regarding commercial drivers license (CDL) convictions. Recently, the federal government mandated that by October 2008, all CDL convictions be entered on a person's driving record within 10 days of conviction. This could not be done without a faster, more reliable system.

The system provides efficiencies for DPS and Oklahoma's participating municipalities in many ways including:

- More efficient reporting and documentation for DPS and the courts
- Declining error ratios reported to DPS
- Reduced paperwork for the agency and the users
- Available at no cost for municipalities to utilize the system

"Prior to the availability of this system, DPS Record Management personnel were processing around 250,000 municipal court convictions and 73,000 court ordered suspensions, the majority of which were being sent on paper. We were experiencing an alarmingly high rate of errors on these documents due to improper name, date of birth, or driver's license number. The creation of the Municipal Court Reporting System by OK.gov for the use by all Oklahoma Municipal Court Clerks has been of enormous benefit to our agency."

Kevin Ward,
DPS Commissioner

Phase two included the addition of a docket page. This is a benefit to court clerks as it gives them an information management tool that they can add all citations before a court date, including municipal codes such as a barking dog or loud music, etc. This is not sent to DPS, but is a permanent record for the court and will always appear on their docket page.

DPS estimates an average savings of \$12,000 a year in printing, mailing and shipping. In addition, DPS is now processing about 3,500 citations a month through the system, which allows for an estimated 60 full time employee hours saved. This provides about a \$9,500 savings each year in employee hours.

Currently there are 207 municipal courts out of 425 possible using the system, with new courts added as requested everyday. This brings the adoption rate to 49% of all Oklahoma municipal courts participating in the program. This represents an increase of about 15% since June 1, 2007.

Oklahoma Department of Labor Injury and Illness Survey

The Oklahoma Department of Labor Injury and Illness Survey allows agency representatives from around the state to enter their yearly injury and illness data via a web-based survey tool during a 45-day open period. In 2007, over 2,100 agency representatives utilized the quick, secure and user-friendly survey.

Oklahoma Office of Juvenile Affairs Web Site

www.oja.ok.gov

The Oklahoma Office of Juvenile Affairs (OJA) launched their new Web site to provide insight into the new and innovative philosophy for juvenile justice in Oklahoma. At the site, visitors can find a district office, learn about volunteer opportunities with Oklahoma youth and view current job openings in the juvenile affairs field. The OJA Web site generated over 40,000 visits in its first year.

Oklahoma Corporation Commission Motor Carrier Automated Citations And Call-in Payment Processing

Automated Citations is an online payment processing system used at scale houses on Oklahoma Interstates that automates the process of issuing, processing and tracking citations to the trucking industry. The intuitive features built into Automated Citations such as the pre-populated carrier database and the pre-defined violations, make the citation process more efficient and effective. Over 9,000 transactions were processed during 2007.

Oklahoma State Regents for Higher Education and Oklahoma Guaranteed Student Loan Program Payment Utility

The Payment Utility assists the efforts of Oklahoma State Regents for Higher Education and Oklahoma Guaranteed Student Loan Program in preventing student loan borrowers from defaulting on their loans by providing quick and convenient access to borrowers to make secure online loan payments.

Oklahoma Board of Chiropractic Examiners Web Site

www.chiropracticboard.ok.gov

The Oklahoma Board of Chiropractic Examiners (OBCE) Web site hosts a wealth of information concerning the Oklahoma Chiropractic industry. At the site, chiropractors can access exam and continuing education class schedules, online license renewal, and detailed information on the Oklahoma Chiropractic Practice Act. Visitors can also view a list of disciplined chiropractors that have been suspended or placed on probation. The site received 18,000 visits during 2007.

Oklahoma Office of State Finance IT and Telecom Reporting System

Per House Bill 2935, passed in the 2006 legislative session, each agency of the executive branch is required to provide an annual Information Technology and Telecommunication Plan to the Office of State Finance (OSF) by July 1 each year.

The IT and Telecom Reporting System allows state agencies to communicate their IT and Telecom operations budgets online, rather than utilizing the previous paper intensive process. The online process has eliminated over 600 man hours of staff time at OSF and many hours at each of the 150 submitting state agencies. The web-based application utilizes a fixed template to produce a one-year operating plan that is provided as a detailed printable report.

The system proved to be a great success as 98% of state agencies produced their 2008 operating plan utilizing the OSF IT and Telecom Reporting System.

MARCH 2007

Oklahoma Board of County Commissioners

Oklahoma Training Resource Directory

www.oktraining.ok.gov

The Oklahoma Training Resource Directory allows citizens and businesses to locate vendors who offer live classes, seminars, workshops and training programs that can upgrade the skills of their employees. The Training Resource Directory is a free public service tool and has received over 2,400 page visits since its deployment during 2007.

Oklahoma Accountancy Board

Web Site

www.oab.ok.gov

Visitors to the Oklahoma Accountancy Board Web site can conduct a search for accountants and accounting firms in their local area, view a list of registrants performing governmental audits, and learn about how to file a complaint regarding a violation of an accountant or accounting firm. The site generated over 12,000 visits during 2007.

Oklahoma Board of Licensed Alcohol and Drug Counselors

License Renewal System

The Oklahoma Board of Licensed Alcohol and Drug Counselors License Renewal System enables alcohol and drug counselors to update their personal and practice data at any time and apply for their annual renewal forty-five (45) days prior to their expiration date.

Oklahoma Bureau of Narcotics and Dangerous Drugs Web Site

www.narcotics.ok.gov

At the Oklahoma Bureau of Narcotics and Dangerous Drugs (OBND) Web site, the public can learn facts about drugs and drug abuse, review current job openings, find a district office, and read the latest OBND headlines. The "Prescription Monitoring Program" enables pharmacies to submit prescription dispensing information to OBND. During 2007, the site generated over 48,000 visits.

Oklahoma Strong and Healthy Web Site

www.strongandhealthy.ok.gov

Governor Henry supported the deployment of the "Strong and Healthy Oklahoma" Web site as part of the initiative to help Oklahomans overcome barriers to improving their health. The Strong and Healthy Web site connects programs and partnerships throughout Oklahoma by providing access to health resources where we live, work and learn. During 2007, the site received over 42,000 visits.

Oklahoma Highway Safety Office

Mobilization Reporting

The Oklahoma Highway Safety Office (OHSO), under the umbrella of the Department of Public Safety, promotes a number of traffic safety mobilizations each year with the goal of decreasing the number and severity of traffic crashes on Oklahoma streets and highways. The Mobilization Reporting System enables Oklahoma law enforcement agencies to report their mobilization activities online. Activities include supporting state and national mobilizations such as "Click It or Ticket" and "Drunk Driving. Over the Limit. Under Arrest".

The application automates a once manual process, and assists the OHSO with their Federal reporting requirements to the National Highway Traffic Safety Administration (NHTSA). The data collected through the system is sorted into predefined categories and can be printed or saved electronically.

While use of the system is optional at this time, almost 81% of reporting agencies used the system during the 2007 "Drunk Driving. Over the Limit. Under Arrest." mobilization.

Oklahoma Real Estate Commission

License Renewal and Continuing Education Lookup

The Oklahoma Real Estate Commission (OREC) license renewal system benefits over 23,600 real estate licensees in Oklahoma by allowing them to renew their licenses online instead of using the paper-intensive process previously offered. It also allows real estate professionals to determine their earned continuing education hours.

“We are really excited about providing these services for our customers because in an already ‘fast-paced world’, moving our license renewals and continuing education lookup programs online just makes sense.”

Anne Woody,
OREC Executive Director

Oklahoma Department of Public Safety

Municipal Court Reporting System (Phase Three)

The Oklahoma Department of Public Safety's (DPS) Municipal Court Reporting System is a reporting tool that enables municipal courts to communicate information regarding commercial driver's license (CDL) convictions to DPS. Recently, the federal government mandated that by October 2008, all CDL convictions be entered on a person's driving record within 10 days of conviction. This could not be done without a faster, more reliable system.

Phase three expanded the system to include an action form that combines an electronic method of submitting the “Abstract of Court Record” to DPS. Items on the action form include:

- Failure to appear
- Failure to pay
- Failure to satisfy sentence of the court
- Notice to withdrawal of suspension
- Receipt of payment of fine and cost

Oklahoma State Construction Industries Board Web Site

www.cib.ok.gov

The new Construction Industries Board Web site received over 3,200 visits during 2007. The site provides quick access to license application and renewal forms for industry professionals such as electricians, mechanics, plumbers and inspectors. At the site, industry professionals can also download testing materials and continuing education information.

Oklahoma Department of Public Safety Uniform Incident/Offense Reporting

The Uniform Incident/Offense Reporting system is used by the Oklahoma Highway Patrol to collect and report data on all incidents and arrests. Resulting reports are used by the Oklahoma Attorney General's Office to prosecute cases. This online process replaces handwritten forms resulting in more efficient and accurate reporting.

Oklahoma Firefighters Pension and Retirement System Secure File Transfer System

The Secure File Transfer System enables Oklahoma municipalities and Oklahoma Firefighters Pension and Retirement System (OFPRS) administrators to securely file their pension contribution files. Municipalities are also able to send other related correspondences to OFPRS through the system.

Oklahoma State Treasurer's Office

Web Site

www.treasurer.ok.gov

Since September of 2007, over 57,000 citizens have visited the new Oklahoma State Treasurer's (OST) Web site. At the site, citizens gain access to search for their "Pot of Gold" in the state's Unclaimed Property Fund and open an online college savings account. The site also provides the latest headlines from OST and information on banking and investment services.

Oklahoma Department of Central Services

Vendor Registration

Vendor Registration allows businesses to register with the Oklahoma Department of Central Services (DCS) as a supplier/vendor for the state. Vendors can also sign up for immediate notifications of bid opportunities with the state. Vendor Registration drives competition for state contracts and streamlines the registration process for DCS.

Oklahoma Highway Safety Office

Web Site

www.ohso.ok.gov

The Oklahoma Highway Safety Office (OHSO) Web site, under the umbrella of the Department of Public Safety, features traffic safety tools for use by the public and law enforcement representatives. Visitors can view an interactive calendar displaying statewide traffic safety events such as car seat checks and "Click It or Ticket" mobilizations. Traffic safety educational materials such as brochures and videos are posted on the site for educational institutions to order. Visitors can also retrieve Oklahoma crash data and statistics, as well as find out which car seat is right for their child. Throughout 2007, the OHSO site received over 91,000 visits.

AUGUST 2007

Oklahoma Office of the Lieutenant Governor Constituent Contact Form

www.ok.gov/lsgov/csar/index.php

The Constituent Contact Form enables the public to address concerns with the Lieutenant Governor's office via the Internet. The contact form improves response time for the citizens and reduces paperwork for the Lieutenant Governor's office.

Oklahoma Board of Chiropractic Examiners License Renewal System

The Oklahoma Board of Chiropractic Examiners (OBCE) License Renewal System enables Oklahoma licensed chiropractors to renew their licenses, update their personal information, and print their annual certificate online. The board estimated about \$5,000 and 160 employee hours were saved in the first renewal cycle alone.

“The new online license renewal process greatly reduces the amount of paper required to administer the license renewal process. We are excited about the opportunity to provide a more efficient, user-friendly, license renewal process to chiropractors.”

Beth Carter,
OBCE Executive Director

Oklahoma Department of Corrections Reentry Division Restricted Access Message Board

The Restricted Access Message Board was created for the Executive Reentry Committee, a group of statewide leaders working with offenders to develop a seamless continuum of care and services for offenders returning into the community. The message board facilitates communication between organizations and professionals involved in assisting offenders' reentry to society and provides an educational platform for interested parties to learn more about reentry.

Oklahoma Office of Homeland Security

Web Site, Grant History Lookup, Regional Map & Message Board System, Threat Level Notifications, and Training Calendar

www.homelandsecurity.ok.gov

The Oklahoma Office of Homeland Security's (OKOHS) Web site offers a variety of services to Oklahoma citizens and first responders. Oklahomans can sign up for threat level notifications, search a grant history database, and view cyber security resources such as Internet safety tips and how to prepare their families for emergencies. Oklahoma's first responders can view available training opportunities and sign-up for training courses.

The regional map features the locations of regional response units with information on the specific region's council members and meetings; as well as a link to a Message Board System for the regional council members.

Through the OK.gov Content Management System, OKOHS staff can update and maintain the training calendar, grant history database, regional map/message board, threat level notifications, and Web site all in one location.

The new OKOHS Web site has received over 43,000 page visits during 2007.

“Our new Web site gives us the opportunity to communicate more effectively with the public about all aspects of homeland security in Oklahoma. We are working to make Oklahoma safer, and timely, accurate information is a key component. This Web site has many new features to keep Oklahomans better informed.”

Kerry Pettingill,
OKOHS Director

Photo courtesy: Woodward County Emergency Management

Oklahoma Commission for Teacher Preparation Web Site

www.ok.gov/octp

At the new Oklahoma Commission for Teacher Preparation (OCTP) Web site, Oklahoma educators can receive information concerning Certification Testing, Program Accreditation and National Board Certification. Educators can also find information on professional teacher development and educational leadership scholarships. During 2007, the site received over 13,500 visits.

Oklahoma State Board of Examiners for Psychologists License Renewal System & Lookup Tool

The Oklahoma State Board of Examiners for Psychologists (OSBEP) License Renewal System enables psychologists to renew their license online and update personal information including continuing professional education and professional will information. Twenty percent (20%) of psychologists renewed their license online in the first four months of operation. The Lookup Tool is a free public utility that allows citizens to search for psychologists in their area.

SEPTEMBER 2007

Oklahoma State Treasurer's Office

Electronic Trading (Phase Two)

The Electronic Trading system enables the Oklahoma State Treasurer (OST) to request and receive online bids for desired investments from approved Oklahoma brokers. Phase two of the Electronic Trading system (OSTbid) allows OST to request and receive five (5) additional types of online quotes for desired investments from approved Oklahoma brokers.

“By going online, we greatly expand the competition for investing state funds and that helps us get better rates and more return on our investments. Having this state-of-the-art system in place is one of the reasons we were able to double investment earnings on state funds during the past year.”

Scott Meacham,
State Treasurer

The Oklahoma Treasurer's Office is the first state agency in the United States to implement a real-time online trading system for state investments with no fees to the participants. During 2007, 40 trading sessions were conducted with more than \$625 million placed for investment.

“OSTbid helps to level the playing field from primary to regional dealers by allowing the broker community the flexibility to go directly to the trading desk. With built-in safeguards like the broker 60-second quote confirmation, the application is also flexible to market movement. It certainly instills the e-Bay mentality. It also takes away the paperwork.”

Mike Minahan,
Vice-President, JP Morgan Securities Inc.

Before the existing application, OST conducted trades by phone with a maximum participation of three brokers. This traditional trade process could take over half an hour to conduct one trade session.

With the new Electronic Trading System, OST can receive quotes from all authorized financial institutions at one time, thus increasing the competition and providing the state with the opportunity to earn the highest returns on its investments.

Oklahoma Indian Affairs Commission

Web Site

www.oiac.ok.gov

In celebration of their 40th Anniversary, the Oklahoma Indian Affairs Commission (OIAC) launched their new Web site allowing visitors to gather contact information for each of Oklahoma's Tribal Nations, download recent newsletters and retrieve tribal broadcasts. OIAC serves as a liaison between Oklahoma's tribal population and governments and the Oklahoma state government. In its first three months, the site received over 3,500 visits.

Oklahoma Alcoholic Beverage Laws Enforcement Commission

License Renewal System

Oklahoma citizens and businesses involved in alcoholic beverage laws enforcement can now renew their Charity Games and Alcoholic Beverage licenses online. Over 4,900 licenses were renewed online in 2007, resulting in a more efficient license renewal process for the Oklahoma Alcoholic Beverage Laws Enforcement Commission.

OCTOBER 2007

Oklahoma Tobacco Settlement Endowment Trust Communities of Excellence Grantee Reporting System

The Communities of Excellence Grantee Reporting System allows companies and organizations invested in the mission of reducing tobacco use in Oklahoma to report their monthly briefing to the Oklahoma Tobacco Settlement Endowment Trust (TSET) online. Monthly briefings include: policies passed, presentations made, training held, meetings with community leaders, coalition meetings, media, community events or sponsorships and organization changes. The reporting system is a collaborative effort of TSET, the Oklahoma Tobacco Control Program and the University of Oklahoma Health Science Center. The system serves as a project management tool and reduces the amount of paperwork and time utilized during the reporting process.

Oklahoma State Bureau of Investigation Web Site

www.osbi.ok.gov

The Oklahoma State Bureau of Investigation (OSBI) deployed their new Web site enabling citizens to report anonymous tips on unsolved cases, view Oklahoma's Most Wanted and Missing Persons, gather information on how to get a license to carry a concealed weapon, and learn about the history of OSBI.

Oklahoma Tax Commission

Online Tax Payments and IVR System

www.ok.gov/oktax/tax_payments.html

The Oklahoma Tax Commission (OTC) Online Tax Payments and IVR System allows the payment of 12 different types of tax payments online or via an interactive voice response system (IVR). Tax payment types accepted via the credit card payment system include: Individual Income Tax, Individual Estimated Tax, Corporate Income Tax, Corporate Estimated Tax, Business Registrations, Sales Tax, Sales Tax Permit Renewal, Use Tax, Withholding Tax, Franchise Tax, Mixed Beverage and Waste Tire Tax.

Oklahoma Alcoholic Beverage Laws Enforcement Commission

Web Site

www.able.ok.gov

The Oklahoma Alcoholic Beverage Laws Enforcement (ABLE) Commission launched their new Web site enabling citizens and businesses to renew their liquor licenses online, as well as download legal documents regarding Oklahoma alcoholic beverage laws.

Oklahoma 911 Statewide Advisory Board Web Site

www.911stateboard.ok.gov

The 911 Statewide Advisory Board (SAB) deployed their new Web site featuring information on emergency 9-1-1 services in the state of Oklahoma. The site facilitates communication between the 911 SAB board members by providing quick access to a board meeting calendar, a board member directory and the status of 911 services being implemented throughout the state.

Oklahoma Ethics Commission

Lobbyist Registration and Public Disclosure System

The Lobbyist Registration and Public Disclosure System enables lobbyists and non-lobbyist registrants to complete their annual registration and reporting obligations online. Upon completing the registration process, users can file their "Lobbyist and Other Person's Gift Report" (Form L-2), amend reports, update their personal and business information and print their lobbyist card.

The built-in Public Disclosure System provides the public with immediate access to search and retrieve reports and data filed by registered and non-lobbyists in the state of Oklahoma. The system is designed to provide accurate and timely information to the public and can be found at www.ok.gov/ethics/lobbyist/

"This system will allow lobbyist registrants to complete their annual registrations online in a much faster manner compared to the previous cumbersome paperwork process. Since the system tracks and saves information in one centralized location, it will also allow our agency to free up resources otherwise devoted to lobbyist reporting."

Marilyn Hughes,
OEC Executive Director

Oklahoma Tax Commission

Motor Vehicle Payment System

The Oklahoma Tax Commission (OTC) Motor Vehicle Payment System allows tag agents in the state of Oklahoma to accept credit and debit card payments for transactions that originate with OTC. The system accepts Visa, MasterCard, Discover and American Express, as well as all Visa and MasterCard branded check cards. Formerly tag agents were only able to accept checks or cash. This application is available to agents as an additional in-house service, not online as a public utility.

Oklahoma Office of State Finance, Open Books

Web Site and Search Utility

www.openbooks.ok.gov

Open Books allows citizens to view the finances of the state of Oklahoma. The Web site was designed to be user-friendly. Every state employee's monthly salary is available for review and can be located by employee name, agency or function of government. Visitors can also find out what taxes and revenue go to support a certain agency.

In addition to these functions, there is useful information about the state's budget, the appropriation process, a glossary of terms, pie charts showing the state's revenue sources, and the principal agencies that receive the largest part of the state's revenue.

Open Books was part of Governor Brad Henry's program for fiscal year 2008 and was modeled after the Federal Government Transparency Act. The Web site is the result of Senate Bill 1 authored by Senator Randy Brogdon and State Representative Paul Wesselhoft.

Web sites launched in 2007 were built utilizing OK.gov's Content Management System: Go Gov! Web Management Suite. The sites were designed to meet and exceed Oklahoma's web accessibility standards, as well as have a common look and feel as other Oklahoma government Web sites. With over 420 users, Go Gov! is utilized to maintain and update 58 state Web sites. To learn more about Go Gov!, visit www.go.ok.gov

Phone: 405.524.3468
